VOLUME ELEVEN

STONY PLAIN, ALBERTA, THURSDAY, APRIL 16, 1931

Whole Number 552

"Ten minutes faster to the office this morning and I didn't speed..."

"FIFTY minutes from home? That's going some!"

"Yes—but you can always depend on Pontiac to come through on schedule. It isn't only speed—it is easy control and snappy acceleration."

And that's the truth about the new Pontiac Six. Driving and riding are restful—and you clip minutes from journeys with safety and comfort.

You may never look under the hood, but it's a joy to experience the quiet, smooth power-plant of Pontiac's 60-horsepower engine. Steering and gear-shifting are effortless. And if you care for that sort of thing, you can "stop on a dime"—with Pontiac's big brakes.

We invite you to see the Pontiac Six and to test it. You will be agreeably surprised at the complete, luxurious car you can buy at such low prices. Likewise you will be satisfied with the low, time-purchase terms of GMAC and the generous provisions of the General Motors Owner Service Policy.

**ANOTHER GLEE CLUB DANCE,
FRIDAY, APRIL 24.
MOOSE HALL, STONY PLAIN.**

Stony Plain and District

Mr and Mrs Jack Barrie, who spent the winter months in the City, have moved to their home at the Edmonton Beach.

Mr C Egbert Mills, fishery inspector, was in town on Friday, on his way to make a survey of Winter's Lake.

On Sunday evening last, at the Baptist church at Glory Hills (Rev Fred W Benke, pastor) a sacred song service was held, in which the Glory Hills German Baptist Male Choir took part, assisted by the Misses Jespersen. There was a large attendance at the service.

Mrs Truax has moved from the Brightbank farm to Stony Plain, and is occupying the Ingle cottage, on Second St. west.

Mr Henry Goebel, who had been operating a barber shop in the old postoffice building, has closed up and gone to the City, to work at the barber trade.

Another of our tonsorial artists, Mr Alec Bauer, has found his duties too arduous, and at the suggestion of his medical adviser, has retired from the business for a time. His place has been taken by a gent from Edmonton.

"Safety First," the play sponsored by Rosenthal Athletic club, was given last week at Rosenthal schoolhouse. As the players are busy at present, no more presentations will be given for several weeks.

The schedule of the four-club basketball league is now in the hands of the printer.

Signs of Spring—seeds at Hardwick's.

"Bow River Trail."

The Walther League Players staged "The Bow River Trail," a three act drama, at St Matthew schoolhouse No. 2 on Friday evening last, and was greeted with a crowded house.

The plot is a very interesting one, and revolves around the doings at a post of the Royal Mounted, and, curiously enough, a lieutenant in the Force is the villain.

Some of the scenes are lively enough, particularly the one in which the bride who was to have married Lieut. Benson, offers herself in her bridal trousseau to the French cook.

Each and all who participated acted their parts in a very commendable manner. The stage was fitted up very realistically.

There had been such a demand locally for tickets that the play was repeated on Saturday evening to another full house.

Among the out of town points at which the company was billed to give a presentation was Onaway, and on their appearance there last evening, the 17th, the hall was filled to capacity.

A New Order Prevails

In the business and financial section of one of the most conservative (spelled with a small "c") papers in Canada we find the following paragraphs:

"That our present economic scheme is seriously at fault surely no reasonable person will deny. The existence of hunger and want in the midst of plenty—the fact that the existence of this abundance of supplies is itself responsible, at least in part, for our present condition, surely constitutes uncontrovertible evidence of our economic unsoundness.

"Argue as we may as to the respective responsibilities for the current depression of the various immediately contributory factors such as over-production and under-consumption of commodities, shortage of gold, hoarding of gold, demonetization of silver, tariffs, war debt, etc., the fact remains that our present economic system doesn't work. It functions increasingly poorly even in 'good' times; its breakdown is immediate and shocking when bad times recur."

The fact that Big Business, our industrial magnates and captains of finance, as well as the workers, now recognize this fact is, perhaps, the most hopeful sign of all. There was a time when everybody everywhere accepted "bad times" as inevitable sooner or later. But not now. The world is at last coming to a realization of the truth that many of our economic ills are largely man-made, and, therefore, capable of both prevention and cure by man-made methods. Cure and prevention will not be brought about by any one magic formula, nor can it be accomplished overnight. The process of developing solutions may be slow and painful. We will probably have to discard many pre-conceived ideas, and accept policies formerly rejected as impracticable and utopian.

For example, there is a growing acceptance of the fact that the old idea of nationalism as opposed to internationalism must give way. The Great War has taught all nations at least one lesson, namely, that no nation can live unto itself alone; that, on the contrary, each nation is dependent on other nations whether they like it or not. Recognition of this fact led to the creation of the League of Nations to direct the world's thought in relation to matters of peace and war. Deliberations of the League Assembly soon revealed that the issue of peace or war was not confined to the solution of racial problems, or the adjustment of boundary disputes, or the eradication of designs by one nation on another for purposes of gain and glory. The maintenance of peace, or the outbreak of war, was found to depend, in many cases, upon the illiteracy of a people, upon the social conditions under which they lived, upon their sharp contrasts of great wealth and poverty, and upon the grinding poverty on the other, upon their ability to sell and buy what their necessities demanded they should buy. Hence the League of Nations today is scientifically studying every conceivable subject in relation to the welfare of all nations and races.

This lesson was not learned at once, and immediately following the Great War, nations everywhere adopted policies with a view to making themselves self-contained. Where one adopted policies to that end, others followed. Instead of recognizing and profiting by the lesson taught by the war, they ignored it and went to extremes. That is one of the outstanding reasons for and causes of the present world depression and stagnation in business. A man conceivably can live and eke out an existence on his own farm, refusing to have any relations whatever, business or otherwise, with his neighbors, but he will deny himself all the enjoyments, refinements, and many of what we now regard as the necessities of life. Never will he become prosperous. And so it is with nations.

As Miss Agnes McPhail, M.P., told the recent Teachers' Convention in Saskatchewan, the world is facing an entirely new order. Instead of confining our thought and our policies to an extreme nationalism, we must become internationally minded. Where one adopted policies to that end, others followed, and were not content with conditions existing in the world and the relation which one part bears to the other. People have not kept pace with the trend of the times, whereby the day of the self-contained and independent nation has given place to a new era of inter-dependence of nations. And because we have not realized how completely the world is inter-dependent, we are still trying to solve our problems with yesterday's methods. They won't work because the world has moved to a new condition; the old is gone forever.

We must take that lesson to heart, and govern ourselves accordingly. We cannot be prosperous if other nations are not. Their prosperity is absolutely essential to our own well being.

CORNS

Lift off - No Pain /

QUICK RELIEF

Just a drop or two of Putnam's on any sore corn and out comes all the pain. The corn shrivels up and drops off. No more pain, no stinging from tight shoes. You can dance or walk in comfort. Use only Putnam's Corn Extender. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

Find Centuries Old Trees

Discovery Is Made Of Ancient Buried Trees In Quebec

Quite recently some white birch trees which had been buried for centuries were discovered in the vicinity of the village of Riviere St. Jean, Quebec, by a field officer of the Topographical Survey, Department of the Interior. The remarkable thing about these trees was their state of preservation. Specimens were presented to the Forest Products Laboratories, Department of the Interior, at Ottawa, where officers state that preservation was due to a surplus of water and a deficiency of air, conditions inhibiting the growth of wood-decaying fungi.

Good News For Aviators

Device To Keep Ice Off Wings Of 'Planes Is A Success

Victory was reported at Akron, O., over one of the aviator's most dangerous enemies—ice that forms on the wings of his aeroplane and sometimes causes it to be wrecked.

Through low-hanging clouds, at freezing temperature and an altitude of 2,000 to 3,000 feet, Charles Meyers, of Cleveland, piloted his aeroplane, which was equipped with rubber "overshoes."

The overshoes—patches of a specially treated rubber fabric fitted over the leading edges of the "plane and wings and struts—were made to "breathe" as the ice formed on them. As they breathed the ice crumpled away.

The inflation and deflation, which worked like a man's lungs, were created by a motor-driven air pump in the cockpit.

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an important dress—lost color so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason, she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost just 15c—the price of one package of Diamond Dyes. I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have a failure with Diamond Dyes. They seem to be made so they always go on smoothly and really cost just 15c—no streak or run; and friends never know the things I dye with Diamond Dyes are dyed at all."

Mrs. R. F. Quebec.

Reciprocal Trade

Would Refrain From Advertising Dominion Products In Britain

Rt. Hon. J. H. Thomas, secretary for Dominion Affairs, was asked by a questioner in the British House of Commons to consider the advisability of refraining from further advertising Dominion's produce on Empire Marketing Board hoardings in Britain. "Until a scheme is evolved whereby similar advertising of British goods can be shown in the Dominions."

The minister replied in the negative. The questioner, he added, "is asking me to agree to something that would be a violation of the bargain we have made with the Dominions. I am endeavoring to ask them to reciprocate in other ways, but to say that unless you do it we refuse to give you the effect of our part in the bargain, is rather wide."

Wonderful For Indigestion!

"When your stomach feels bad; when Gas, Sourness, Nausea or after-eating pains make you feel miserable—a single dose of pure Bile Beans Magnesia will bring about instant relief."

For indigestion, the prompt effectiveness of BILE BEANS Magnesia is really wonderful. Even the most obstinate cases quickly respond. Pleasant and inexpensive to use. Ask your druggist.

The average height of an Englishman is 5 feet 9 inches, of a Frenchman 5 feet 4 inches, and of a Belgian 5 feet 6 1/2 inches.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

The Boston Post Road, originally an Indian trail between New York and New England, was outlined by the first official post rider in 1673.

for BRUISES

There's nothing to equal Minard's. It "takes hold." Antiseptic, soothing, healing. Gives quick relief!

MINARD'S "KING OF PAIN" LINIMENT

ENO'S "FRUIT SALT"

Doctors Warn Against Drastic Purgatives

Physicians know the danger of using cheap cathartics that create a harsh, unnatural intestinal activity. They know that ENO'S "Fruit Salt" is more than a laxative. It is a delicious health beverage that sweetens and tones up the entire system—and that its daily use—just a dash in a glass of water, every morning—is an aid to vigorous good health.

An Unfamiliar Country

Few Canadians Know Very Much About Argentina

Canada stretches across the north half of North America. Argentina occupies the greater part of the southern extremity or "tail" of South America. Argentina's length from north to south is approximately two-thirds of Canada's from east to west. Its population is perhaps a million greater than Canada's. Its largest city, Buenos Aires, is three times the size of Toronto, and with its 2,225,000 inhabitants, ranks as the world's eighth. They are (in millions of population): London, 7.74; New York, 6.85; Berlin, 4.01; Chicago, 3.37; Paris, 2.83; Osaka, 2.40; Tokio, 2.29; Buenos Aires, 2.22. Argentina has four other cities larger than Hamilton, Ont., ranging in population from 460,000 down to 170,000, whose names (Rosario, Cordoba, Avellaneda, and La Plata), are quite unfamiliar to the average Canadian reader. But the opening of the British Trade Exposition in Buenos Aires, and the visit of the Prince of Wales to Argentina, has drawn all eyes to that far and unfamiliar country.—Toronto Star.

Volume Of Eskimo Poems Just Published

Translated Into English By Arctio

Explorer Should Be Interesting Knud Rasmussen, the Arctic explorer, has sprung a surprise upon the world.

He has celebrated his return to civilization, after many years of wandering in the wilds, by publishing a volume of poems by Eskimos.

It will be interesting to see the poems in English. We may be sure Rasmussen has presented them worthily in print, for, with his European education, he has the advantage of being himself half an Eskimo, and so thoroughly understands his subject.

It seems natural for primitive people to talk of wild picturesque poetry, unrhymed, but full of beauty and imagination, such as we see fixed for all time in the musical names which the Red Indians gave to rivers and lakes and mountains in their native land.

It will be remembered by some that scholars have declared the Eskimo language contains only about two hundred words which should add greatly to the labors of the poets.

Was Weak and Run Down

Could Scarcely Do Housework

Mrs. Edward A. Allen, Bezanon, Alta., writes:—"I would like to tell you of the great benefit I have received from your Milburn's Heart and Nerve Pills. I was feeling very much run down in health, and was so weak I could scarcely do my housework, in fact, I would have to lie down in the afternoon for an hour or so. I saw your Pills in the drug store and took a box home with me, and I was delighted with my renewed strength. I have recommended them to a neighbor and feel sure they will help her too."

Sold by all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Cut Down Food Wastage

Need For Adjustment Of Weights Of Hogs Marketed To Conform To Requirements

Time and experience are great teachers—but only for intelligent people. The official grades for hogs have been established a considerable length of time and production and marketing under the system have now been carried on during wide variations in conditions both as affecting production and the manufacture and distribution of the product.

For years conditions in production were such that producers were all the time inclined to put their hogs on the market in a somewhat unfinished condition. The results were, too big a percentage of light hogs and many otherwise good hogs within the prescribed weights yielding thin bellies. As the belly makes the valuable breakfast bacon this weakness in the product was important.

In a system of grading hogs alive the determination of whether a belly was finished or not was exceedingly difficult. However, comparisons of live gradings with dressed tests revealed the fact that most of the thin bellies came from the lighter hogs within the bacon grades. Therefore, to secure the proper quality in the high grade product, it was agreed to raise the minimum weights of the bacon grades ten pounds.

But producers were anxious to maintain the spread between the minimum and maximum weights of the grades and it was at the same time agreed that the maximum weights should also be raised ten pounds. Packers always recognized that the inclusion of these heavier weights within the better grades of hogs was dangerous, because demand for hams, backs or breakfast bacon for the domestic market or of Wiltshire side bacon for the export market of the weights that hogs from 220 to 230 lbs. yielded was very limited at the best prices. However, as the numbers of hogs of these weights were not at the time in such great supply as to constitute a burden, the producers' requests were acceded to. And as long as these conditions prevailed no harm was done.

This year we have run into producing conditions which have proved that in the effort to correct the former condition the proper limit of weights was over-reached. An excess of weighty hogs in all of the three main grades has seriously affected the sale of the product and has been a very depressing factor in the market. It is also very dangerous from the standpoint of our prospective entry into the export market.

There is, therefore, a need for an adjustment of the weights of the bacon and select bacon grades to 180 to 220 lbs. at the farm or fed and watered, and of the butcher grade to 150 to 230 lbs. when and if conditions should in the course of some years again make desirable a slight swing of 10 pounds in the weights it would appear reasonable that arrangements should be made so that this could be done expeditiously. But producers plead that there should be stability in the weights for each grade. Insistence on absolute stability will not work to the advantage of the producer or of the industry as a whole, but if this view is to prevail then undoubtedly the weights will require to be moved back to those that will, on the average, give the desired product, and be left there. The weights from 180 to 220 lbs. at the farm, or fed and watered, yield the Wiltshire cuts from 55 to 65 lbs. that are in demand and the weights of hams, bellies, backs and loins that are most desired by the domestic consuming trade. Then, when feeding conditions change and there is again a tendency for considerable percentages of unfinished hogs to come to market, these will have to be excluded from the higher grades by rigid grading of the lower weights for quality.

In connection with standards of weights the accompanying chart showing a comparison of ours with the Danish standards is very illuminating. The Danish standards it will be noticed, are very much narrower than ours. Their standard grade on a live basis weighs from 175 to 210

lbs. and their premium hog only from 185 to 200 lbs. The Danes discount all hogs under 175 lbs. and over 210 lbs. These weights are calculated from dressed weights at the factory and would be for reasonably empty hogs. They would correspond more nearly to our weighed off car weights, which are ten pounds lighter than our farm or fed and watered weights.

Hog Grades Compared

The chart compares the weight limits of the official grades of hogs in Canada and Denmark. It will be noticed that the grade equivalent to our "Select Bacon" for which the Danes pay a premium has a spread of only 15 pounds—from 185 to 200 lbs. against our 40 lbs. The Danish standard grade, equivalent to our bacon grade, has a spread of only 35 lbs. against our 50 lbs. There is no grade in the Danish system equivalent to the butcher, but overweights and underweights start directly from the standard with, in each case, a discount in price. The Danish grades do not provide any place for hogs under 130 lbs. or over 230 lbs.

The world's earliest farmers lived in the New Stone Age about 10,000 years ago.

- A. SIR SAMUEL CUNARD, Founder of the Cunard Line.
- B. SIR PERCY E. BATES, Bart., G.B.E., Chairman of the Cunard Line.
- C. R. W. REFORM, Esq., Canadian Director of the Cunard Line.

The above photograph gives some idea of the immense size of the new Cunard liner at present under construction. If the liner were placed on its side the hull of the ship would be more than five hundred feet higher than the top of the highest building in the British Empire. Also pictured above is Sir Samuel Cunard, born in Halifax, N.S., who founded the Cunard Line in 1840. The present chairman of the Line is Sir Percy Bates, Bart., G.B.E., while R. W. Reform, of Montreal, is Canadian resident director of the company.

CHINESE MURDER MISSIONARY

Mrs. Victoria Miller of Glendale, Calif., who was one of two women missionaries reported murdered at Yamanfu, China, while they slept, by hatchet blows believed delivered by discharged servants.

Market In The Orient

See Solution Of Economic Problem In Trade With Asia

Asia was the unexploited part of the earth toward which industry should now bend all its efforts for marketing. R. J. Cromie, publisher of the Vancouver Sun, declared before the Advertising Club of Montreal, recently. Bankers of the world should find a way of re-establishing silver at some fixed level of value or giving Asiatic people currency that would be good for world commerce in order to facilitate their buying, the speaker declared.

"A sick world economically is no different from a sick industry or a sick financial institution, and there is little difference in the treatment required, except that to cure successfully depressed world conditions it is necessary to think in an international way. You and I as an individual are helpless to restore the buying power of silver countries like China and India, which will in turn restore the buying power of Europe, and set in motion the huge surpluses that are piled up all over the United States and Canada. And the world's business depression will not be lifted until we start these surpluses moving," Mr. Cromie said.

Canadian Copper Ore

Copper ores of various kinds, including the native metal, are found at many places throughout Canada, but only the sulphide ores are commercially important.

Splendid Services Of The Community Doctor In West Noted By American Investigator

Western Indians Are Raising More Stock

Industry Has Developed Rapidly In Last Few Years

The stock-raising and farming of the Indians of the western provinces has developed rapidly in the last few years, says W. M. Graham, Indian commissioner.

Thirty-five bulls were purchased at Regina and 11 at Brandon, he stated, and a large number were bought at the Calgary Fair.

"These bulls are paid for from a fund created by the Indians themselves," he said. "Each Indian pays so much into the fund every time he disposes of an animal from his herd. It is well known that the Indians have some of the finest cattle in the Western provinces and have taken prizes at many shows held at different places."

"They own more than 20,000 head and dispose of between 3,000 and 4,000 head every year. The estimated calf crop this year is expected to be between 6,000 and 7,000 head."

Demand For Better Beef

Well Finished Young Cattle Means Money To The Producer

The beef grading service of the Dominion Department of Agriculture, which is closely in touch with consumer preferences for beef, recently stated: "One thing clearly apparent in the market at the present time is the demand for better beef."

The market preference today, the Department adds, is for well finished young cattle weighing around 900 to 950 lb. live weight, dressing out around 525 lb. This type of animal, properly finished, means money to all concerned."

Spruce and Balsam Cones

The cones of the spruce hang down from the branches; those of the balsam fir ("balsam") stand upright. The species are thus easily distinguished when the trees are bearing cones, states the Dominion Forest Service of the Department of the Interior. The two species mentioned are the ones chiefly used in the manufacture of wood-pulp.

The human body is 60 per cent water.

The community doctor serves 32 rural communities in Saskatchewan on a full time or part time basis, according to a report made by Dr. C. Rufus Rorem to the committee on costs of medical care, at Washington, a private organization which is making a five-year survey of the financial end of medicine. These Saskatchewan country doctors as well as three physicians employed for their full time by three municipalities in Manitoba, are paid out of public funds.

Dr. Rorem in his report says: "Saskatchewan has for some years taken the lead in the Dominion of Canada in the matter of sanitation, immunization against contagious diseases and other preventive measures and has recently inaugurated a system by which all residents of the province requiring hospitalization for tuberculosis may receive both institutional and medical care at no direct cost to themselves."

Municipal doctors, Dr. Rorem found, were usually hired when communities found their existing medical services were inadequate or too costly, or when physicians who had previously served them died or moved away.

Dr. Rorem said the average salary of the full-time physicians in Saskatchewan is \$4,000 and to this many physicians were able to add considerable sums through fees which they were allowed to charge.

"In a general way," he said, "physicians appear to consider their net incomes are larger under the municipal doctor system than in private practice in the same locality."

No rural municipality which had adopted the municipal doctor system has gone back to the private practice basis.

Preference For Canadian Wheat

Britain May Make Offer Of Coal In Exchange For Wheat From Dominion

Quota preference for Canadian wheat in the British market in exchange for a Canadian market for British anthracite coal will be one of the proposals advanced by the British Government at the Imperial Conference to be held in Ottawa during the summer according to an editorial forecast in the London Daily Express.

"Well done, Socialists," comments the editorial, in reference to the presumably reliable report that the Labor Government intends to give the British farmer a quota on his wheat. Under the proposed scheme the use of at least 10 per cent. British flour in all bread would be made compulsory. But the newspaper anticipates the government will not stop there.

"They have every intention," it says, "of going to the Imperial Conference at Ottawa this year, determined not to repeat last year's fiasco. Canada too will be offered a wheat quota. The price asked will be a Canadian market for British anthracite coal."

First Woman Flier

The first female aeronaut was one Madam Thérèse or Thibide. She joined the painter Fleuret aboard a balloon, called the Gustave, which ascended at Lyons, France, on June 4, 1784, in the presence of the royal family of France and the King of Sweden.

"Was it a dangerous operation?" "What! Do you think a doctor would perform a dangerous operation for 45?"—Outerra, Madrid.

SUNDAY SCHOOL LESSON

APRIL 19

THE RICH MAN AND LAZARUS

Golden Text: "Lay up for yourselves treasures in heaven, where neither moth nor rust doth consume, and where thieves do not break through nor steal."—Matthew 6:20.

Lesson: Luke 16:1 to 17:37.

Devotional Reading: 1 John 3:13-18.

Explanations and Comments

The Parable of the Rich Man and Lazarus, 16:19-31.—We call this rich man of the parable "Dives," making use of the Latin word for "rich man." Dives was clad in purple and fine linen; his outer garment was dyed purple, and his inner garment was made from a sort of flax that grew on the banks of the Nile, so finely woven as to be almost transparent. "Purple and fine linen" is a phrase used to this day for luxury and ostentation.

"We remember with sorrow and compassion the idle rich, who have vigor of body and mind and yet produce no useful thing. Forgive them, Heavenly Father, for loading the burden of their support on the best shoulders of the world."—Rev. R. Forgive them for wasting in refined excess what would feed the pale children of the poor. Forgive them for setting their splendour before the thirty hearts of the young, hating them to eye and flesh. Forgive them for taking pride in their selfish lives."—Walter Rauschenbush.

Lazarus (the name is a contraction of Eleazar, "Helped of God"), was a beggar who was brought to the rich man's gate, where he hoped to be fed from the crumbs that fell from the rich man's table. So helpless was he that even the dogs came and licked his sores. Wretched dogs roamed the streets and lived upon the garbage that was thrown out from the house. The suggestion is that the dogs were kinder than the rich man, or else that they increased his misery by rasping his sores.

When the beggar died, he was carried away by the angels into Abraham's bosom. "Abraham's bosom" is a Jewish name, not of heaven, but of an intermediate state of bliss, in which the souls of the just await the resurrection." In his parable Jesus made use of the well-known rabbinical fancy—angel bearers. Abraham's bosom, the two divisions of Hades, the separation and yet communication between them—but his doing so does not mean that he accepted these fancies for the truth. His purpose in his story was not to reveal the nature of the life hereafter, but to teach that retribution overtakes the sinner, and in doing this he deliberately adopted the picture language of the current which admirably suited his purpose.

The rabbi said, "The fire of Gehenna has no power over the sinners of Israel, for Abraham descends and rescues them from it." In accordance with this thought, the rich man, who had also died, appeals to Abraham from his place of torment and begs him to send Lazarus to his aid, if only with water on the tip of his finger. But Abraham bids Dives to remember that in his lifetime he had had the good things while Lazarus had had the evil; now Lazarus is rewarded while he is punished.

The Terror Of Asthma comes like a thief in the night with its dreadful throbbing, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

On Threshold Of Discovery
Dr. John Anderson, formerly of the London school of tropical medicine, died at Shanghai, China, after an operation, just when he believed himself to be on the threshold of a crowning achievement in his research into cerebro spinal meningitis. It is understood he succeeded a short time before in isolating the meningitis germ.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil, its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Dream May Be Realized
Dr. Hugo Eckener, Zeppelin commander, bids America goodbye, seeing realization of his dream of scheduled trans-Atlantic airship flights by 1933. In ten years, Dr. Eckener believes, two sailings a week in either direction will be made.

DEPRESSION

"I'm a different woman"

"Two years ago I began to get depressed, and everything was too much trouble for me. I was a misery to myself and even annoyed my friends. I was advised to take Kruschen Salt by my friends who told me it was the same as Kruschen but I did me no good, so at last my husband got me a bottle of Kruschen and no one would realize the different woman I am. I have been taking Kruschen now constantly for two years. My daughter also would not be without it. I have got my neighbour to take Kruschen as well and she has found its worth as she feels a different woman."

(Mrs. G. A. K.)
The commonest cause of depression is partial constipation—an insidious complaint because the sufferer is seldom aware of it. It means the gradual accumulation of body poisons which dull the mind, damp the spirits, sap the nervous strength and lower the whole vitality.
Kruschen Salt makes constipation impossible. Therefore, if you keep to Kruschen you need never know the meaning of melancholy; never feel "nervy" or depressed.

Granny Rides a Motorcycle

Sixty-Year-Old English Woman Is Quite An Enthusiast

In the face of the displeasure of her grandchildren, Mrs. Clara Brown, aged 60, recently rode from Leamington to London on her motorcycle to attend the annual dinner of the London Ladies' Motor Club, in honor of Sir Malcolm and Lady Campbell and other racing drivers. She rode in overalls and waders, with her dinner gown strapped on the handle bars. Three years ago Mrs. Brown took part in a six-day motor trial and recently won a Concours d'Elegance wearing a riding outfit which she made herself.

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headache, neuralgia, etc.

Synthetic Air

Better Than Natural Air, According To Scientists
Science believes it can give mankind synthetic air to breathe that is better than the natural atmosphere, the American Chemical Society was told.

Professor J. W. Hershey, McPherson College, McPherson, Kan., said experiments have shown that life can be sustained more healthfully with a chemically concocted atmosphere, which can be manufactured and introduced in office buildings, airplanes and submarines, than with the nitrogen-oxygen that surrounds the world.

Experiments with white mice showed that in some cases they lived more healthfully in helium-oxygen than in nitrogen-oxygen, Professor Hershey said.

A strangely mottled discolorization which attacks otherwise healthy teeth of children in certain parts of the country, notably Texas, is due to the chemical element fluorine, according to R. V. Churchill, who described his investigations before the convention. The fluorine discolorization, which apparently does not cause tooth decay but is located under the enamel, comes from the fluorine element sometimes present in drinking water, Churchill said.

Persian Balm is a sheer delight to use. Cools and relieves irritations caused by weather conditions. Imparts a rare charm and beauty to the complexion. Fragrant and velvety smooth. Never leaves a vestige of stickiness. Swiftly absorbed by the skin. Persian Balm is the perfect toilet requisite. Every woman will appreciate the subtly distinctive charm achieved by the use of this magical lotion.

SELECTED RECIPES

FLORADORA PIE

- 2 cups pineapple diced.
- 2 tablespoons butter
- 3 tablespoons Benson's Corn Starch.
- 1 cup coconut.
- ¼ cup sugar.
- 4 egg yolks.
- Juice and rind of 1 lemon.
- ½ teaspoon salt.

Blend the sugar with the corn starch and add to the malted butter. Stir in the other ingredients and cook until thick in a double boiler. Put in a baked crust and cover with meringue.

The leaning tower of Pisa was never upright because the foundation began to sink before the construction was completed.

PILES

Don't suffer any longer from these unsightly blemishes. Overcome them at home! Get 2 oz. Perosine Powder from your druggist. Sprinkle a little on the face cloth, apply with a circular motion and the blackheads will be all WASHED AWAY. Satisfaction or money returned.

Homesteading Limited

Areas in Alberta and Age Of Homesteader Specified

Alberta will permit homesteading in certain specified areas but restrict this to persons of the full age of 17 years, British subjects or with the intention of becoming British subjects, who have resided in the province for a period of at least three years.

Regulations to this effect were approved by the Provincial House before the House prorogued, when the new Alberta Lands Act was finally passed.

51 Wellington St. W.

TORONTO, ONT.

WIDER POWERS ARE SEEN FOR THE DOMINIONS

Ottawa, Ont.—Statute of Westminster has been approved by representatives of the nine provinces of Canada. A section of this proposed act, however, will contain definite safeguards of the Canadian constitution. This section, which was left to Canada to draft, ensures that the Statute of Westminster cannot repeal or amend the British North America Act.

This was the net result of the Dominion-Provincial conference which concluded here. An official statement, handed out after the conference, announced that a final draft of the Canadian clause in the Statute of Westminster was now in the hands of the provincial representatives. While approved by the conference, this draft would be taken home for submission to the provincial governments. Two weeks has been allotted for discussion by the provinces.

Now that the clause is under consideration which will set at rest any fears that the B.N.A. Act might be altered by the Statute of Westminster, the question of how the B.N.A. Act can be changed as the occasion for amendments develops is to be taken up at some further conference in which the Dominion and the provinces will take part. This was announced by Premier Bennett.

Many changes to the act, which is Canada's constitution, defining provincial and Dominion rights, have been made from time to time, but the parties are for the most part in agreement that where a change of importance is to be made, all the provinces must consent. The conference will seek to arrive at the most satisfactory method of making changes. Adherence to the Statute of Westminster means widened jurisdiction for the Dominions of the British Empire. It provides that the Dominion may "enact extra-territorial laws. It declares the Dominions will no longer be subject to British statutes unless they so desire. It repeals the Colonial Laws Validity Act. It gives legal approval to the claim of the Dominions to equality of status in the British Commonwealth.

If the provinces approve of the clause which was agreed on at the conference, the next step will be taken by the Dominion Government at the present session of parliament. A resolution or bill will be introduced expressing Canada's adherence to the statute. The Imperial conference of last year agreed that the Dominions should express their attitude toward the statute by August. If there is general agreement, the Imperial parliament will be asked to pass the Statute of Westminster.

Royal Grain Commission

Chief Justice Brown May Be Appointed to Represent West

Ottawa, Ont.—Chief Justice J. T. Brown, of the Court of King's Bench, of Saskatchewan, is likely to be the third member of the Royal Grain Commission to inquire into trading in futures. Chief Justice Brown would represent the prairie provinces.

Sir Josiah Stamp, eminent London (England), economist, has been named as chairman of the commission. The representative of the Grain Exchange will be W. Sanford Evans, Winnipeg, whose selection has already been approved.

President of Rifle Association
Ottawa, Ont.—At the annual meeting here of the Dominion of Canada Rifle Association, Lieut.-Col. D. R. Street, of Ottawa, was elected president. He succeeds Brig.-Gen. J. Duff Stuart, of Vancouver. Proposals for increasing the prize lists at the rifle matches to be held at Connaught Ranges next August were approved.

Plans Pacific Flight

Tokyo, Japan.—Captain Thomas Ash, arriving in Japan aboard the liner "Helen Maru," announced he had hopes of obtaining a permit for the aeroplane of Harold L. Bromley for a projected non-stop flight across the Pacific.

Chicago's New Mayor

Mayor-Elect Cermak Busch With Re-Organization of Municipal Government

Chicago.—Speedy re-organization of Chicago's municipal government was promised by Mayor-elect Anton J. Cermak.

The new mayor will have a working majority in the city council, considerably enhanced by victories which accompanied his own success. Thirty of the city's 50 aldermen are Democrats. Nine of the 20 Republicans were classed as allies of Mayor Thompson.

"What are you going to do about Al Capone?" British reporters asked on the phone.

"I understand he is out of town," replied Cermak, "and my advice to him is to stay out for the next four years." He is under sentence here for "knowing, and I suggest that he stay in Florida, that's where he belongs now."

Cermak laughed when the London writers asked about Thompson attack on the King.

"He didn't really fool you people, did he?" chuckled the mayor-elect. "No, he isn't really anti-British. The British vote is the smallest in Chicago, so he decided to pick on the British King. No, I haven't anything against King George or any other king."

Importance Of Wheat Conference

Robert Gardiner Says Hopes Of Western Agriculture Depend On Outcome

Calgary, Alberta.—Upon the outcome of the wheat conference in London, England, next month, the hopes of western agriculture depends, according to Robert Gardiner, U.F.A., president and leader of the Progressive group in the House of Commons. Much will depend upon the nature of the arrangement for the division of available markets. The solution, he thought, would be an arrangement by Canada, United States, Russia, Argentina and Australia to permit orderly marketing of the export surplus of each of these countries to their mutual advantage. This, if developed, would involve development of centralized marketing from Canada, possibly under government auspices.

The other alternative would be a compulsory pool. Mr. Gardiner said, although he had been opposed to this method.

No Cancellation Likely

Serious Hardships Would Attend Reduction In Air Mail Service

Ottawa, Ont.—It is unlikely there will be any cancellation of existing air mail contracts it was stated on excellent authority here. The need for exercising economies in the post office department, coupled with the necessity for overhauling some of the \$5,000,000 deficit with which the department completed the fiscal year, had given rise to the expectation that the government would reduce some of the unremunerative services, in which category the air mail service is understood to fall.

Cancellation of the contracts, however, would have entailed considerable hardship inasmuch as in the expectation of a continuance of the services, several companies had incurred large capital expenditures in establishing air transportation organization.

Borrowers In Difficulty

Montreal.—Farmers who have attended to business are all right, only the farmers who have borrowed money and now have interest charges to carry for having sought a shortcut to prosperity through a broker's office are in serious trouble, Senator D. E. Riley, High River, Alberta, rancher, said on reaching this city.

History Books Criticized

Toronto, Ont.—Accumulation of dates and facts in history text books had developed in students a hatred of Canadian history, declared W. S. Wallace, librarian of the University of Toronto, addressing Ontario Educational Association here.

Soundproof telephone booths have been installed at one California airport.

The U.S. government maintains 98 schools for natives in Alaska.

SAYS RUSSIA DOOMED

W. E. Clifford, Montreal engineer, recently arrived from Moscow, U.S.S.R., who declares Russia is despotically controlled by Communist fanaticism, and that the country is doomed to failure.

Projects For Churchill

Two Million Dollars Worth Of Building Material Being Assembled

The Pas, Man.—Two million dollars worth of building material is being assembled and plans are under way for the employment of 1,000 men for work on the 2,000,000 bushel elevator project at Churchill, terminus of the Hudson Bay Railway.

Material is being assembled in Winnipeg and 30 trains of 40 cars each will be required for the shipment of steel and equipment to Manitoba's seaport. Work on the elevator project will be well underway by July 1, contractors stated.

Churchill will have its first hotel this summer and the first test shipment of grain will be made from the port in September, according to Hon. D. C. McKenna, Minister of Natural Resources. No "boom" conditions will be permitted.

Soviets Extending Air Service

Ambitious Civil Aviation Program Announced By Government

Moscow, Russia.—Coincident with the opening, May 1, of several Russian passenger and mail aero lines, the Soviet Government announced an ambitious civil air program. Some 15,000 student aviators are in training and a total of 172,000,000 rubles is budgeted for civil aviation in 1931. Plans call for extending the passenger and mail lines over 25,000 miles and installing fifty new aerodromes and 250 landing fields.

Doubts Quota Policy

British Miller Thinks Scheme Is Too Dangerous

London, England.—John Westgate, of Liverpool, who is an officer of the National Association of British and Irish millers, is inclined to doubt the report that the government is considering the imposition of regulations requiring British millers to take 15 per cent. of requirements from wheat growers in the United Kingdom.

No definite scheme has been submitted to the millers by any political party, he said.

"It is perfectly certain that no legislation is possible without the millers' agreement," said Mr. Westgate, in an interview with the Manchester Guardian. "The quota system is far too dangerous to be acceptable. And the English wheat policy at present is insufficient to constitute a 15 per cent. quota."

Anglo-German Conference

Matters Of Vital Importance Will Be Discussed

London, England.—Matters of the utmost importance in European politics will be discussed from June 5 to 9, when Chancellor Brüning and Foreign Minister Julius Curtius, of Germany come to England for a conference with Premier MacDonald and other British statesmen.

Among the questions expected to be considered are general disarmament, especially in relation to the Geneva conference early in 1932, and the Austro-German economic pact, but no topic of significance to European politics is likely to be barred.

Official British circles take very calmly the suggestion that other European powers had been somewhat rattled by the exclusive nature of the conference.

Canadian Wins Medal

Honor Goes To Deputy Minister Of Department Of Mines

Ottawa, Ont.—A signal honor has been conferred on Dr. Charles Campbell, deputy minister of the Department of Mines. A cable from London announced that he had been awarded this year's gold medal by the British Institution of Mining and Metallurgy. One medal is awarded each year to the person, without regard to nationality, whom the institution decides is the most deserving.

May Delay Radio Hearing
Ottawa, Ont.—Preparation of the case for the Dominion Government on the radio reference to the supreme court of Canada is not completed, and expectation is that an adjournment will be asked.

ARGUE QUESTION OF RESOURCES COMPENSATION

Ottawa, Ont.—The amount of compensation to be paid to Saskatchewan and Alberta by the Dominion for alienation of their natural resources from 1905 to October 1 last, the date of return, may be decided upon by the same commission for both provinces. This suggestion, it is understood, was under consideration at a meeting between Premier R. B. Bennett, Hon. T. G. Murphy, Minister of Interior; Hon. M. A. MacPherson, Attorney-General of Saskatchewan, and Premier J. E. Brownlee, of Alberta. No official statement, however, was made.

Under the respective agreements between the Dominion and the two provinces, entered into more than a year and a half ago, the amount of compensation to be paid to Saskatchewan and Alberta for alienation during this period was not fixed. Commissions were to be appointed and, in the case of Alberta, one was named, but no such step was taken in regard to Saskatchewan. What the personnel of the commission would be if the same body is to function with regard to both provinces is uncertain at the moment, assuming that such a suggestion is acted upon.

Further discussion will take place on this point and in the matter of the turning over by the Dominion of certain lands to the provinces. In addition, Saskatchewan has an appeal pending before the judicial committee of the privy council asking for an accounting by the Dominion in respect to the administration of that province's natural resources prior to 1905.

Reduced Railway Fares

Drastic Cut For Summer Week-End Trips Is Announced

Montreal.—Drastic cuts in fares on Canadian railroads for the summer week-end were announced by C. T. Riddell, chairman of the Canadian Passenger Association, after a series of conferences. The new scale will go into effect May 1, and will continue through June and July. The new round trip fare from Friday noon till Monday midnight will be only one and one-quarter times the present single fare.

The reduction will be of special benefit to those passengers wishing to week-end in the country.

The present round trip fare for 100 mile journey is \$6.20 and under the new week-end rate will be only \$4.35.

The reductions will apply between all stations in Canada and will commence with the first week-end in May.

Cost Is Prohibitive

Winnipeg-Calgary Air Mail Letters \$37 Each Is Report

Calgary, Alberta.—Air mail letters between Calgary and Winnipeg are costing on an average \$37 each, according to statements made here by Dr. G. D. Stanley, M.P. for East Calgary, who has just returned from Ottawa.

Government investigations have revealed the prohibitive cost of the present air mail service, he said, and these surveys show that Calgary sends two letters by air for every one sent by Winnipeg.

Viscount Secures Motor License

Ottawa, Ont.—Viscount Duncannon, son of the Earl of Bessborough, lost no time on his arrival in Ottawa in securing his license to operate an automobile. The Governor-General and his family arrived at Rideau Hall shortly before noon. Four hours later Viscount Duncannon was at the office of motor license to secure his permit.

Hanger To Be Rebuilt

Winnipeg, Man.—Plans for rebuilding of the Western Canada Airways hanger here, destroyed by fire a short time ago at a loss of about \$200,000, have been completed and tenders on the construction called for. The new hanger will be about the same size as that destroyed.

RUSH ANTITOXIN BY PLANE

Chief Pilot Joe Crosson (in fur flying kit) of the Alaskan Airways, loading antitoxin aboard his fast small Stearman plane before making a dash to Point Barrow for the relief of diphtheria-threatened Eskimo residents. Three are reported as already seriously stricken with the disease. The plane was commissioned for the flight by Alaska Territorial Health Commissioner De Vries. Dr. Henry Griss, Presbyterian missionary physician at Barrow, performed the inoculations.

DELUXE SPORT MODELS POPULAR.

One of the significant trends in the automotive fields, evident during the past year or two, is the evolution in popular favor toward the sport or deluxe type of car. Popularised on the college campus, the "dolled up" auto represents a constantly growing proportion of each year's output, resulting in a gradual lowering of price as a result of this increased production, according to General Motors executives. Few realise the nold deluxe models have today on the auto buying public. The truth is, as represented by the Chevrolet, that when the 1931 line is rounded out, exactly half the models in it will have sport equipment.

Canada Must Win World Championships

World Championships in 1932 will be won by farmers who recognize that the cleanest and best quality seed with the most careful cultivation are essential to the production of exhibition grade. This is recognized that these things should apply to the whole crop area, consequently a small plot is the best plan for securing an exhibit sample. If such a plot is planted in extra preparation—with more care probably than it is possible to devote to the whole crop area—and sown in the very choicest seed it will not only provide good quality foundation stock for next spring's seeding, but a winning sample for exhibition as well.

The World's Grain Exhibition and Conference

REGINA, JULY 25 to AUG. 6, 1932

This great World Exhibition and Conference is organized by the Canadian Agricultural Association for the advancement of Canadian agriculture to demonstrate the superiority of Canadian food crops, to further stimulate a world-wide demand for Canadian crop products—Canada's pride—against all competitors—must win the world's attitude.

\$200,000 in Cash Prizes

\$2,500 a first prize for 50 lbs. of wheat; 30 lbs. of oats;
\$1,500 for 40 lbs. of barley; 30 lbs. of rye
\$500 for 20 ears of corn;
\$250 for 30 lbs. of peas; 30 lbs. of flax; 20 lbs. of clover.

All sportsmanlike farmers have special discounts for helping the exhibition. OFFICIAL JUDGES: Wheat for cereals, Quebec; QUERRE, Paul Mathias Dept. of Agriculture, Quebec; NIVA, RICHTER, W. J. Long, Chief of Agriculture, Prince Rupert; NEW BRUNSWICK, O. C. Hulse, Dept. of Agriculture, Fredericton; MANITOBA, J. C. Mackay, The Prairie Provinces, Winnipeg; BRITISH COLUMBIA, C. L. Smith, P. O. Box 100, Vancouver; ALBERTA, J. H. Vigne, Dept. of Agriculture, Regina; SASKATCHEWAN, R. H. Vigne, Dept. of Agriculture, Regina; SASKATCHEWAN, R. H. Vigne, Dept. of Agriculture, Regina.

On exhibition, the Secretary, World's Grain Exhibition and Conference, General H. H. Mackay, Regina, will send you prize lists, rules and regulations governing competition entries and all other information.

Chairman National Committee: HON. ROBERT WELLS, Ottawa.
Chairman Executive and Finance Committee: HON. W. C. BUCKLE, Minister of Agriculture for Saskatchewan.

T. J. Hardwick Agent, Stony Plain

Stony Plain and District

Mr. "Bob" Stoker motored a party of friends, yesterday, up to Ozone Park, the new summer resort near Rosevear.

At a meeting of local baseball enthusiasts Monday night an application was forwarded to the secretary of the amateur league in Edmonton for the admission of Stony's senior ball team. St. Albert will also be in this league.

"Bow River Trail" will be shown at Holborn tomorrow night, the 17th, and at Concordia College on Saturday, April 25th.

The theatrical troupe presenting "The Part Time Husband" at Moose Hall Wednesday evening got a good reception. A dance followed.

The Junior U. F. A. dance at Lucknow school on Friday evening was well attended; the music being supplied by a local orchestra.

Altho the advance notices given out by the C.N.R. predicted a change in the running times of passenger trains, no change has taken place, as yet, in the running times of the trains of this division.

BIRTH—At Baltimore, Md., Sunday, April 5, to the wife of Mr. R. S. Leursen, a son, Mrs. Leursen was the former Bertha Gneiting, at one time a resident of this district.

FOUND, Saturday a.m., on trail to Evansburg, a lady's boot for left foot, right-hand glove, a sock but no garter. These may be obtained at the Sun office by the owner or someone on her behalf.

Before the P. M.

Among the cases to come before Magistrate Williams in the local Court on Monday was the case of Mike Schmigalski, charged with assault on Mrs. Wasyli Spicer. Considerable evidence, pro and con, was taken, at the conclusion of which the magistrate reserved judgment.

Several small debt cases also were up for an adjudication.

Basketball Meeting.

A meeting of the Executive of the Basketball League was held Monday evening, with Pres. Moseley in the chair, and representatives present from the four clubs.

It was agreed that the first game in the league should be played Tuesday next, April 21st; the games to start at 7 sharp until May 3d. A team not putting in an appearance by 7.30 to forfeit the game.

A rule which governs this season's playing says a player must reside within 5 miles of his (or her) team's home grounds.

Spruce Grove News.

Capt. E. R. Gibson was present, on April 9th, at Alhambra Hall, Edmonton, when the members and friends of the Edmonton section of the Alpine Club met and held a luncheon, to celebrate the 25th anniversary of the founding of the club.

Mr. H. Struve, of Onaway district, has been back in this district, hauling out from his old farm to the elevator.

Mr. and Mrs. Anderson, of Chisholm, Alta., were visiting here Tuesday evening, with Mr. and Mrs. Wangler.

Grain hauling to the elevators by farmers of this district has been one of the principal outdoor sports, lately.

The windstorm of Saturday and on Sunday succeeded in cleaning the topsail from the kypols on a number of farms in this district.

And now the Big Fuss at the Grove is the Community affair. This will be pushed in an energetic manner this season. At the Rally the other evening a membership committee of 25 was appointed to solicit adherents to the cause.

A local popular truckdriver tells this one: A lady motorist was driving along the Baseline one afternoon last week when she spied a couple of repair men climbing the telephone poles. "Fools," she exclaimed, "they must think I never drove a car before!"

Guenette—Gagne.

At St. Joseph's R. C. church at Spruce Grove, on Wednesday, April 17, Miss Florence Gagne (daughter of Mr. Napoleon Gagne, of the Spruce Grove district) was united in the holy bonds of matrimony to Mr. Wilfrid Guenette (son of Mr. Edward Guenette) of Smith, Alberta.

The ceremony was performed by the Rev. Chas. Keenan, pastor of the church. Following the ceremony, the bridal party sat down to a sumptuous repast.

Confirmation Service at the Peace Church

At the Easter services at the Peace Lutheran church at Spruce Grove, Sunday, April 5th, the following young people were confirmed and admitted to membership in the Congregation, by the pastor, Rev. H. Kuring:

John Singer,
Frieda Singer,
Adam Bohram,
John Dittmer,
Edward Javoraky,
Werner Schmidt.

RAIL AND STEAMSHIP LINES

Here and There

There are 75,211 tractors in operation on the three Prairie Provinces of Canada, according to a recent estimate. Last year 8,901 tractors were sold in western Canada.

Barrow, Alberta, on the line between Lethbridge and Medicine Hat breaks the record for Spring plowing and cultivating in 1931. Work on the land there is general and began March 25.

Motor tourist travel to New Brunswick from United States will not appear at post office in 1930 than in the previous year, according to a statistical statement issued recently by the Canadian Customs Commissioner.

While the railroads of this continent are not responsible for deaths or injuries to trespassers on their properties, they annually spend many thousands of dollars in preventative steps and educational campaigns to reduce this drain on the men and women of the country.

George H. Jones, head of the Canadian Pacific Supply Farm at Strathmore, Alberta, has been appointed senior manager of the Colonization Finance Corporation of Canada, Limited, with headquarters at Portage La Prairie. Mr. Jones is replacing the late Mr. J. H. Jones, who was one of the outstanding livestock authorities in Canada.

Travelling Incognito, Their Majesties the King and Queen of Siam will not appear at public receptions in Victoria or Vancouver when they arrive with their regal suite aboard the Empress of Japan en route to New York, April 17, the Consul-General for Siam announces.

A total of 1,065 moose and 10,873 deer were taken by hunters in the New Brunswick woods during the past hunting season, bringing the total for the past ten years to 12,614 moose and 60,332 deer, according to the report of the Game Warden of the Province.

Announcement has been made by the Canadian Pacific Railway company that shipments of freight at eastern points for points west, via Port McNicoll, will now be accepted subject to delay at Port McNicoll pending the first of June. There will be five Canadian Pacific steamers on Great Lakes service during the coming season.

Given a year of peace and China will become a dominant factor in enormous trade developments between Great Britain and Europe in the Far East," says Sir Ernest Thompson, prominent British cotton manufacturer, who returned from a British economic mission to China aboard the Empress of Canada recently.

The majority of the directors of the Saskatchewan Poultry Pool Ltd. are women, and for several years they have directed the Pool with conspicuous success. For the year to January 31, 1931, the Pool did a gross turnover of \$312,000 according to the report of president Bertha Holmes, an increase of 9 per cent. over 1929 and 44 per cent. over 1923. CHAPTER XV.

On a day some two weeks later, the unusual sight of Julie Nipps, clad in a blue sport coat of obviously modish cut, might have been seen on Main Street. She was pushing a g-cart in which sat little Martha, clasping in her arms the doll for which Halliday had sent to Boston. Julie felt proud both of her coat, and of the little girl, who wore a dainty pink gown that brought out the color in her cheeks. In a desire to display her finery she promenade the length of Main Street's "shopping district," then turned to the north, and a less dusty thoroughfare. "To all appearances she was 'taking her time,' which in Julie's busy life was something unaccustomed. She hesitated as she approached John Maxwell's fine old house, and at that moment Mary Maxwell appeared in the wide doorway.

"Come in, Julie. Is that the little girl who's staying at the Hallidays?" I want to see her."

Julie was not loath to obey. She was genuinely fond of Mary Maxwell, whose house-cleaning she had done for years. Mary was also fond of Julie, who was an unfailing source of amusement during the spring upset. She noticed the coat at once, and spoke of it.

"Aren't you looking pretty fine?" Julie flushed with pleasure.

"Miss Halliday gave it to me. She said she bought it by electric light, and when she got home and begun wearin' it she found it didn't blend with her eyes. Them's her own words, Miss Maxwell. Would you believe a grown woman'd be so silly? Yes, this is Martha. Shake hands with

the lady, dearie—there's a good girl!" The lady drew shyly back, but at Mary Maxwell's smile she stretched out her arms.

"What a darling!" said Mary, lifting the little girl and seating herself in a comfortable rocker. "Come up on the porch, Julie, and rest a minute if you have time."

"Oh, I got time enough," replied Julie, accepting the invitation with all the ease of a free-born, small-town American. Mary once told her husband that if the President of the United States should invite Julie Nipps to dinner, she would go through the proceeding with no uncomfortable qualms as to her fitness. She seated herself now in John Maxwell's favorite chair, and proceeded to rock almost as rapidly as she talked.

"She's gone to Boston to see about opening up their apartment for the winter; and he's gone to Anton Bay to see an old aunt or somebody. He didn't go till after she left. Guess he didn't want her to find it out. So my time's my own till supper. Look out, Martha, you'll be breakin' the lady's beads if you pull on 'em like that."

"No, she won't," contradicted Mary. "They've withstood the hands of five children and seven grand-babies. Well, Julie, if the Hallidays go back to the city you'll be out of a job. Perhaps you'll do my fall cleaning if I leave it long enough."

"Well, now I'd thought of that myself; but it seems they ain't got to take Martha with 'em. Maybe there ain't room in that flat, but it's my opinion that she won't have her. Anyhow, I'm to stay right on and be sort of caretaker for the house and little Martha too. It'll be some lone-some, but Mr. Halliday said he'd make the pay all right, and I will say a may have a long face but he ain't got a mean bone in his body. Sam Toomey's to come every day to fix the furnace and bring up coal and wood. I'll live like a lady, say I see in the Boston paper that his ma left him a pot o' money—him and his sister. I guess Miss Halliday knew which side her bread was buttered on when she took him."

"Oh, Julie! you really shouldn't say such things. Of course she cared for him."

"Take it from me," replied Julie, unabashed at this reproach, "that woman don't care for no man! but her thing, Miss Maxwell, though I wouldn't say it if I didn't know you ain't one bit of a gossip! Miss Halliday is one o' them women they call a vamp!"

Julie made this announcement with such fine oratorical effect that Mary Maxwell was forced to stifle a laugh, even in her amazement that Julie should agree with her own conclusions regarding Angela Halliday. She hid her smile behind little Martha's curls before she answered:

"Mercy, Julie! What a thing to say about your mistress!"

"Excuse me, Miss Maxwell," Julie corrected, "but I never called nobody that yet, and at thirty-four years old I ain't goin' to begin. She's the lady I'm accommodatin'. I read in a magazine that that's what you call a person who helps out at a critical time, most any time would be critical if Miss Halliday did the cookin'. She don't know salt from soy."

"She's an artist, you know," suggested Mary kindly. "Some artists aren't as practical as the rest of us." "Well I'll tell the world she's practical enough to know what pleases a man, though she don't try extra hard to please her own. She's like them women in the movies, Miss Maxwell. Them that don't appreciate a good steady feller when they got him, but is always runnin' after some other woman's husband. Now them Myers what visited her—he was about as handsome as a stuffed pillow case, but he wore pants and was somethin' like Halliday could make eyes at. One night—"

"Really, Julie," interrupted Mary conscientiously, "you ought not repeat these things. I—"

"Don't let that worry you a minute, Miss Maxwell," broke in Julie. "You've been good as a mother to me ever since I lost my own. I ain't forgotten how you fixed me that elegant black dress for the funeral, and if I can live you up with a little more about the Hallidays, why it's my Christian duty to do it. I was goin' to say that that puffy Myer man did for a time, but now he's gone and there ain't no one handy for her to make eyes at but Nick. He's known Nick Hastings ever since he wore short pants, and to see him sittin' on the veranda bein' made a fool of, gets my hair up."

"What do you mean?" Mary Maxwell drew her scruples to the wind as she asked the question; while Julie, enjoying the role of news-monger, spoke mysteriously.

"'Twas last night. Gay had run over to carry a glass o' jelly to Sadie Twichell. The babies were a-bed, and Nick was supposed to be lookin' for 'em; but Miss Halliday see him an' called him over. He'd gone for a walk—Mr. Halliday, I mean, and I was puttin' away the silver to the sideboard; that is, I'd been puttin' it away, and had set down a minute by the window. They was right outside and I couldn't help hearin' what they said."

"But, Julie, it's not honorable to listen to conversations that way."

"I 'wa'n't listen! I was restin' my feet. Miss Halliday give me a pair o' pumps she got tired of, and they ain't properly broke in yet, so I set down by the window and slipped 'em off. And just then she give a sort o' call. It sounded for all the world like a bird, and I looked out and see Nick come through that hole in the hedge. They set down together outside the window and I heard her say: 'We both seem to be deserted, Mr. Hastings,' and Nick laughed and said: 'Then let's console each other. Isn't it a bully evenin' for September?'"

"Well, Miss Maxwell, I started to move but I was afraid they'd hear me, and anyway my feet weren't anywheres near ready to be squeezed in to them pumps. Besides, if Nick Hastings was goin' to do any consolin' I wasn't goin' to miss it. I ain't forgot-how Gay trimmed a hair for me once when I was cleanin' Sadie Twichell's attic, and if Nick cuts up any money shinin' with Miss Halliday same as that Myer feller did, he'll get a piece of my mind."

Mary Maxwell, who had buried her conscience deep and was shamelessly

W. N. U. 1885

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

We had slipped down the burning slope, expecting every minute to be our last, then found ourselves falling into space. We shut our eyes, rather than see the fiery burning furnace that we believed lay below—then suddenly I found myself choking for breath, deep down in the cool swirling depths of a mountain pool.

I fought my way to the top and found Scottie swimming in circles up there on the surface, looking for me with a most doleful expression on his whiskered face. Above us the woods burned brightly, the river disappeared in a smoke-filled tunnel of flaming trees. It was through that tunnel we must go if we were ever to get out—and the light was so uncertain that we had no idea whether the sun was shining or not.

When the water grew shallow I waded around slippery boulders, and crawled over ledges where the smoke and white current pulled and tugged at my clothes and often swept out of my feet. It was painfully slow work for both of us. Scottie was clutched under my coat and I staggered along as fast as I could.

Soon the stream narrowed, and the rock ledges on either side rose to a height of twenty feet or more. It was a regular gorge. Up over us the woods crackled and roared of the flames rose as a sound—a sort of deep hiss rumble like thunder that broke through a long roar of the flames.

"The current grew deeper and swifter, and the gorge continued to grow steeper and deeper. The water fell in a support while I rested.

"The current grew deeper and swifter, and the gorge continued to grow steeper and deeper. The water fell in a support while I rested.

"The current grew deeper and swifter, and the gorge continued to grow steeper and deeper. The water fell in a support while I rested.

"The current grew deeper and swifter, and the gorge continued to grow steeper and deeper. The water fell in a support while I rested.

The ADVENTURES of CAPTAIN JIMMY and his Dog SCOTTIE

"I planned ahead, flying low. By the time it was noon old Yekkers, but the smoke was so thick we couldn't see a thing of it. I yelled at the top of my lungs and Scottie barked—but we might as well have been whispering in a hurricane in Greenland harbor, we could not even hear ourselves.

Slowly, step by step, we retraced our way, back through the gorge. On a flat rock in the stream, we sat down to think—the bank was too cool for comfort and the rock was none too cool. Taking off my leather jacket I carefully laid the heavy leather into strips, using the axes and all. When fastened together these strips made a strong rope about ten or twelve yards in length.

Now for a place to tie it at the head of the falls. I needed a log that could be wedged securely between the walls of the gorge—that would do the trick. I found one on the right side. Half floating it, I made my way toward the edge of the falls. One false move—and over I'd have gone. Carefully I worked one end into a crevice in the ledge. With one and anchored I pulled the other end across against the opposite wall of the gorge.

From my shirt I made a sling. With one end I pulled the rope around my waist, I braced myself against the tree and lowered Scottie. The rope just reached, and he climbed out on the side of the bank. My turn came now. I straddled the log, took a tight hold of the leather rope, and with a tremendous pull, the rope slipped through my hands and I fell into the water.

The stream widened as we went along, and the banks grew lower. I saw that the banks were only a foot or two above the water.

The woods seemed to be getting lighter about. I pushed on faster—and there we were on the edge of the nearest little mountain lake you ever saw. Far up on the right the fire was rapidly working down to the lake. Our left, the woods were burning almost to the water's edge.

Suddenly there was a scrambling in the undergrowth—some kind of animal was being chased through. Scottie remembered the game and stood still with every hair standing straight out like a porcupine. The creature was a bear.

New Radio Process Tested

Uses Only Enough Power To Operate Flashlight Bulb

A new radio process which uses just enough power to light a flashlight bulb, then carries the voices across the English Channel when it was demonstrated by the International Telephone and Telegraph Company.

The aereals are less than one inch long. Conversation was clear and distinct. The process used a radio beam travelling in a straight line.

Douglas' Egyptian Liniment is recommended for sore necks, galls, distemper, calouses and sprains—Removes proud flesh and Hoof Rot. Stops bleeding instantly.

It has been estimated that 20,000-000 meteorites enter the earth's atmosphere from outer space every day.

Little Helps For This Week

"Speak unto the children of Israel, that they go forward."—Exodus xiv. 15.

Therefore think not the Past is wise alone.

For yesterday knows nothing of the Best.

And thou shalt love it only as the best.

Whence glory-winged thoughts to heaven have flown.

Let us have done with vain regrets and longings for the days that will never be ours again. Our work lies in front, not behind us; and "foreward" is in our motto. Let us not sit with folded hands gazing upon the past as if it were the building; it is but the foundation. Let us not waste heart and life thinking of what might have been, and forgetting the "may be" that lies before us.

—Jerome K. Jerome.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

"Dr. Blank has a new car."

"I know! I helped to pay for it."

When You OVER— INDULGE

EVERY man, woman and child will occasionally over-indulge. But don't suffer for your indiscretions. It's folly to do so when you can so easily sweeten and settle a sour, acid stomach with a little Phillips' Milk of Magnesia.

Hearty eaters have long since learned the quick comfort this perfect anti-acid brings. Smokers know how it neutralizes nicotine; brings back a sweet taste; guards the breath. Women know what it does for nausea—or sick headache. And when children have over-eaten—are bilious, constipated or otherwise upset—give them a little of the

same, pleasant-tasting and milky-white Phillips' Milk of Magnesia.

You'll be through with crude methods once you learn the perfect way. Nothing else has the same quick, gentle effect. Doctors prescribe it for indigestion, nausea, heartburn, gas, sour stomach and headache. It has been standard with them for over 60 years.

Insist on genuine Phillips' Milk of Magnesia—a few perfect products may not all be the same. The genuine is always a liquid—never in tablet form—and the name Phillips is always on bottle and wrapper.

What Keeps the Price Down

The total stocks of grain in Canada at March 31, 1931, were higher than in any previous year at the same date. The quantity of wheat in Canada was 275,190,987 bu., considerably higher than the figures of 228,643,367 bu. as at March 31, 1930. These figures are based on returns received by the Dominion Bureau of Statistics, Ottawa, from elevator companies, flour mills, railway companies and crop correspondents.

Reception to Catechumens

The members of Walther League held a social evening and reception to the graduates of the Catechumen class, at St. Matthew school, on Sunday April 12th. Mr. Walther Rosnau was chairman.

In the absence of the invited speaker from Edmonton, the address of welcome was given by Mr. Ph. Enders, who gave a review of the operations of the League, and the benefits accruing to the members.

About three score young people were present, and a very pleasant time was enjoyed by all. At the conclusion of the program, a dainty lunch was served.

General Motors' Broadcast.

Over 25 stations from coast to coast, "Canada on Parade" made its debut to local radio listeners on Friday evening. Opening the parade, General Motors Orchestra played the overture "Figaro" of Mozart. This was followed by an ensemble of gifted vocalists giving a rendering of Gilbert and Sullivan's "Mikado."

The program included a presentation by Louis Musy, of the Opera Comique, in Paris, who sang Benvenuto Cellini and Tales of Hoffman.

In the Canada On Parade programs on following Friday nights, bits of Canadian history will be presented in dramatic form. Friday night's original one act offering was called "Bachelor Richet," a stirring episode of the year 1685 in old Quebec.

Listen in tomorrow (Friday) at 9 p.m. to stations CJCA and CKCL.

Golden Spike.

About 8 p.m. on the evening of the 7th inst. the barn on the farm of Mr. Henry Shuster, at Golden Spike, caught afire from some unknown cause and burned up. The building, which had been erected two years ago, was a total loss, together with some hay and feed. All animals in the barn had been taken to a place of safety at the outbreak of the fire.

Rev Theodore Waack, pastor of Zion Lutheran church at Golden Spike, is holding an auction sale of chattels to day, at the parsonage. Rev Waack has accepted an appointment to a charge in the Clarendon district.

Everybody in the district is out on the land now—with a general request from most farmers for more moisture.

Lower Fares on C. N. Ry.

Lower week end rates on Canadian National Ry. will become effective during the first week in May, under a three months' trial, according to the passenger traffic manager for the C.N. western lines. The new schedule will not be in effect after July.

Tickets for these week-end trips may be purchased from Friday noon until Sunday at noon, while use can be made of them for return trips until Monday midnight. The special reductions have been made for short haul business. The rates work out at a fare and a quarter for the round trip. Instead of the present basis of 3 45c. a mile, the new rate is just over a mile.

Sunday's Train Derailment

Mrs. Franklin K. Clarke, who with her two children had been visiting here last week with Mr. and Mrs. J. F. Clarke, was in one of the coaches of the Canadian National Ry. train which left the rails while crossing an embankment west of Edson, at 5 a.m. Sunday.

Mr. J. F. Clarke had motored the trio in to Edmonton late Saturday evening, to get aboard the train in the City. The first report to reach here on Sunday was to the effect that Mrs. Clarke had received injuries to her back and right arm. She was taken to her home at Jasper, and is said to be making a good recovery from her injuries. Neither of the children was injured other than receiving a shock.

There were 28 other passengers who received injuries, two of them seriously.

The Edmonton Journal interrupted its string ensemble broadcast on Sunday afternoon to give out the news of the derailment.

Blueberry Notes.

The chicken supper and dance at Blueberry on Friday night was a grand success. Everything went off fine, from beginning to end, and Blueberry can well boast of some good cooks. All had an excellent time, leaving quite reluctantly after 3.30.

Blueberry dancers are arranging to attend the masquerade ball up at the Heathcrown hall the night of Fri., April 24.

On Palm Sunday the following were confirmed at St. John's Lutheran Congregation at Blueberry, by the pastor, Rev H. Kuring:

Edward Enders
Henry Brown
Emolina Miller
Katharine Dewald
Lydia Ostzinger
Emilie Meyer
Theresa Miller
Maria Baron

Tomahawk Topics

On Wednesday, April 8th, a respected resident of Tomahawk district passed to his reward in the person of Mr. W. A. Warner, after an illness of several months.

Deceased was 58 years of age, having been born in the State of Wisconsin in the year 1873; coming to this country a number of years ago, and settling near the place where he passed away.

He had been engaged in running a general store for the past two years; and for some time had been a Councillor for his division in Tomahawk Municipality.

Funeral services were held in the St. Thomas R. C. church at Tomahawk, on Saturday, April 11, and was attended by a large number of the friends of deceased. The service was conducted by Rev C. Keenan, the pastor.

He leaves to mourn his loss his widow and one son Edward, who resides in Detroit, Mich.

ACROSS the Dominion sweeps a wave of national enthusiasm. Canadians are striding forward on the rising tide of a fresh prosperity. General Motors of Canada, Limited, pays tribute to the "Forward Canada" Movement with "Canada on Parade," a radio hour every Friday evening, typifying the spirit of Canada's progress.

Listen for "Canada on Parade," the catchy signature song of the series. They'll shoot music at your music store, or write to your favorite radio station for an introductory free copy.

Forward with Canada... Be Confident
